Summary of request:

Please attach an additional sheet (typed 100-200 words max) describing how your project meets the criteria of the IBA Special Projects Fund. Please address the points listed in the 'Criteria For Use Document' specifically and also attach a project budget in reasonable detail (at least the major categories of receipts and expenditures). Please remember that the IBA Special Projects Fund only makes grants to finite projects with a defined end date which will make a significant contribution to the aims of the IBA and is available for the use of internal committees of the IBA only. In addition, please state how you foresee your committee publicising the finished product and explain how it will be promoted to a wider non-IBA audience.

The committee is authorised to approve requests of up to £50,000 without further consultation of the Management Board. Requests above this amount will be preliminarily reviewed by the committee for recommendation, but will be referred to the Management Board for final decision.
