ABOUT THE AAG-SEERIL

Established in 1983, the Academic Advisory Group (AAG) of the International Bar Association's Section on Energy, Environment, Natural Resources, and Infrastructure Law (SEERIL) is a network of academic lawyers that carry out research and teaching in areas pertinent to SEERIL. For over four decades, the AAG has undertaken cutting-edge research on various aspects of energy and natural resources law, and has published a substantial book every two years.¹

In addition to research and publications, the AAG actively promotes collaborative activities and events with the six subject matter committees of SEERIL: Environment, Health and Safety Law; International Construction Projects; Mining Law; Oil and Gas Law; Power Law; and Water Law.

AAG members also provide academic support to the highly regarded *Journal of Energy and Natural Resources Law* of SEERIL.

¹ Previous AAG books, all published by Oxford University Press, include: *Human Rights in Natural Resource Development: Public Participation in the Sustainable Development of Mining and Energy Resources* (2002); *Energy Security: Managing Risk in a Dynamic Legal and Regulatory Environment* (2004); *Regulating Energy and Natural Resources* (2006); *Beyond the Carbon Economy: Energy Law in Transition* (2008); *Property Law in Energy and Natural Resources* (2010); *Energy Networks and the Law: Innovative Solutions in Changing Markets* (2012); *The Law of Energy Underground: Understanding New Developments in Subsurface Production, Transmission, and Storage* (2014); *Sharing the Costs and Benefits of Energy and Resource Activity* (2016) *Innovation in Energy Law and Technology* (2018); *Energy Justice and Energy Law: Distributive, Procedural, Restorative and Social Justice in Energy Law* (2020); *Resilience in Energy, Infrastructure, and Natural Resources Law* (2022); *Net Zero and Natural Resources Law* (2024).
