

IBA Healthcare and Life Sciences Law Committee

Welcome to the International Bar Association's Healthcare and Life Sciences Law Committee!

We bring together lawyers, in-house counsel, and industry advisors from around the world who advise on:

- ❖ Healthcare systems and governance
- ❖ Digital health, AI and emerging tech
- ❖ Life sciences, pharmaceuticals, biotechnology and medical devices
- ❖ Cross-border transactions
- ❖ Investigations and disputes
- ❖ Regulatory compliance, product safety and liability

Our Committee is part of the IBA Law and Individual Rights Section and serves as a forum for thought leadership, professional development, and meaningful international collaboration.

The strength of the Committee lies in the engagement and diversity of its members. Whether you are interested in contributing to panels, writing or co-authoring articles, participating in working groups, or simply expanding your international network, there are many ways to participate.

Subcommittees + Leads
