**How artificial intelligence is revolutionising healthcare**

Software has fuelled many developments in health care – but what changes does AI bring? Can robots perform surgery? Can AI replace the diagnosis traditionally made by a doctor? Who is accountable for mistakes? How can patient data be used most safely? What must patients be informed about? How should AI be regulated? What are the latest legislative developments? What are the ethical boundaries? This panel will present applications of AI and robotics that already work in practice and explore the issues encountered.

**Cybersecurity risks in M&A transactions**

Cybersecurity is one of the top risks for businesses. It has also gained relevance in M&A transactions since legacy issues in acquired targets or assets have caused huge damage and resulted in heavy sanctions for the acquirers. In this session, the panelists will discuss what cybersecurity due diligence is about, what technical tools may be used to support during due diligence, what contractual safeguards should be taken in a share or asset purchase agreement, how to foster the cyber resilience of a target and how to deal with targets hit by a cyber-incident. The ways these issues are dealt with in both Europe and the US will be discussed, through a lively and interactive session with high-profile experts from both sides of the Atlantic.

**No deductions or withholdings**

All fees payable to us by you in accordance with the terms contained in this ‘Information’ section shall be paid free and clear of all deductions or withholdings whatsoever.

If any deductions or withholdings are required by law to be made from any fees payable to us by you under the terms contained in this ‘Information’ section you shall pay such sum as will, after the deduction or withholding has been made, leave us with the same amount as we would have been entitled to receive in the absence of any such requirement to make a deduction or withholding.

If we obtain the benefit of any tax credit or other relief by reference to any such deductions or withholdings, then we shall repay to you such amount as, after such repayment has been made, will leave us in no worse position than we would have been had no such deductions or withholdings been required.

**Conference sell-outs**

The IBA places its conferences in venues of a suitable size for each event; however, there are times when our conferences may sell out. Should this happen, prospective delegates will be informed, and a waiting list will operate. The waiting list will function on a ‘first come, first served’ basis, subject to receiving registered delegate cancellations. The waiting list for a conference will close once it has reached ten per cent of the conference venue capacity, as it is very unlikely a place will become available. The IBA will not be liable for any travel or accommodation expenses incurred by an individual who travels to a conference without a confirmed place at the event.

If cancellation is received in writing at the IBA office by 4 March 2022, fees will be refunded less a 25 per cent administration charge. Refunds will be made minus any monies owed to the IBA.

Should you have difficulties in obtaining your visa and are not able to attend the Conference this cancellation policy will still apply.

Upon submission of your completed Conference registration form to the IBA you are considered ‘registered’ pending payment. Please note that the cancellation terms and conditions as indicated will apply as soon as your registration is received.

Provided you have cancelled your registration to attend an IBA Conference in accordance with the terms of the ‘cancellation of registration’ clause included in the ‘Information’ section of the relevant Conference programme, you must then confirm to us in writing at the IBA office as soon as possible, but in no event later than one year (12 calendar months) from the date of any such Conference, all necessary details to enable any reimbursement owed to you to be paid. We regret that no refunds will be made after the date that is one year (12 calendar months) after the date of the relevant Conference.

The International Bar Association (IBA), established in 1947, is the world’s leading organisation of international legal practitioners, bar associations, law firms and law societies.

The IBA influences the development of international law reform and shapes the future of the legal profession throughout the world. It has a membership of more than 80,000 individual lawyers and more than 190 bar associations and law societies spanning over 170 countries.

Inspired by the vision of the United Nations, the IBA was founded in the same spirit, just before the Universal Declaration of Human Rights was proclaimed in 1948.

The IBA covers all practice areas and professional interests, providing members with access to leading experts and up-to-date information, enabling them to better represent their clients’ interests.

Through its various committees, fora and task forces, the IBA facilitates the exchange of information and views among its members as to laws, practices and professional responsibilities relating to the practice of law around the globe.

Corporate and M&A Law Committee Overview
Corporate law is central to every modern economy, whether developed or developing.

Internationalisation and globalisation of economic activity make corporate law and mergers and acquisitions issues central to the practice of business law.

The Corporate and M&A Law Committee aspires to be the leading global forum for the education, exchange of know-how and networking of corporate, corporate compliance, private equity and M&A practitioners around the world.

Technology Law Committee overview
The Technology Law Committee of the International Bar Association brings together lawyers practising aspects of the law particularly relevant to modern technologies. They have in common that they deal with developing bodies of law coming to grips with the new questions posed by new technologies. The mandate of the Technology Law Committee is broad and includes virtually any kind of technology.
