

Phil Fogg Jr is the great grandson of Phileas Fogg, the well-known explorer who went around the world in 80 days.

Phil is a well-known vlogger, writer, social media commentator, producer and presenter of travel programmes who runs his own company in the UK and has his own YouTube channel. He receives a salary from that company in the same way that employees do although he is the majority shareholder. Phil is now a wealthy individual who has made significant income from his businesses and royalties on his books.

Phil is considering undertaking a worldwide trip and is taking with him his French Butler Jean Passepartout.

Phil is tired of London and he feels that Brexit has limited his horizons. He wants to prove that Samuel Johnson's words  
**"When a man is tired of London, he is tired of life"**  
are not true. He wants to be a Citizen of the World. He is proposing to travel around the world in to find the best country to visit, film his exploits and possibly live in.
