About the IBA

The International Bar Association (IBA), established in 1947, is the world's leading organisation of international legal practitioners, bar associations, law firms and law societies.

The IBA influences the development of international law reform and shapes the future of the legal profession throughout the world. It has a membership of more than 80,000 individual lawyers and more than 190 bar associations and law societies spanning over 170 countries.

Inspired by the vision of the United Nations, the IBA was founded in the same spirit, just before the Universal Declaration of Human Rights was proclaimed in 1948.

The IBA covers all practice areas and professional interests, providing members with access to leading experts and up-to-date information, enabling them to better represent their clients’ interests.

Through its various committees, fora, and task forces, the IBA facilitates the exchange of information and views among its members as to laws, practices and professional responsibilities relating to the practice of law around the globe.

Energy, Environment, Natural Resources and Infrastructure Law Section (SEERIL) overview

The Section is composed at present of six subject matter committees: Environment, Health and Safety Law; International Construction Projects; Mining Law; Oil and Gas Law; Power Law; and Water Law.

These committees publish newsletters to keep members informed of significant developments within their subject matter discipline. They may also hold their own specialty conferences. You will find us actively participating in all IBA annual meeting programme activities, putting on cutting edge programmes designed to inform and educate our members. We also hold a bi-annual conference just for our members. The Section is proud to have an official Academic Advisory Group, which publishes a substantial book every two years on topics of interest to our members. We also publish the highly regarded Journal of Energy and Natural Resources Law on a quarterly basis.

For more information please visit the Energy, Environment, Natural Resources and Infrastructure Law Section (SEERIL) home page.
